Appendix 1.

*Llannerch Bridge update:*

*Denbighshire County Council's published a third Newsletter – Spring 2023 - regarding the Bridge see link -*

[https://countyconversation.denbighshire.gov.uk/uploadedfiles/Llannerch%20Bridge%20-%20Newsletter%203\\_SPRING%202023.pdf](https://countyconversation.denbighshire.gov.uk/uploadedfiles/Llannerch%20Bridge%20-%20Newsletter%203_SPRING%202023.pdf)

*Slow progress is being made, meanwhile and the Community Council and our two County Councillors for Trefnant and Tremeirchion, Cllrs Chris Evans and James Elson, keep raising the progress with the County Council, and with our Member of the Senedd and Member of Parliament.*

*Some £350k has been spent on exploratory research and design work, and a further £400k is funded by Welsh Government to advance detail design. This could be regarded as positive in so far Welsh Government has not written off the rebuild. What is clear is that the county will design a modern 60mph capacity, 6.3m width road bridge, and that the Grade II Listed bridge will not be replicated. This will not alleviate the concerns of the community of the Waen, re return to high volume and speed of traffic.*

*Discussions with stakeholders Welsh Water and Natural Resources Wales continue to progress – as does the project cost is elevated at £9M! A worry is the recent reports of a call for more cut backs in DCC and WG budgets for 2024/25.*

*As we approach 3 years since Storm Cristoph, we remain a minimum of two years away from any potential rebuild completion.*

*Appendix 2.*

*County Councillors report:*

*As I'm sure you're all aware DCC are looking to cut the funding in libraries and try to cut the running of them by 50% myself and other County Councillor's feel this is totally wrong on many levels.*

*1 The decision has not been put in front of us as County Councillors to debate and look at the business plan*

*2 The libraries are not just there for borrowing books they offer. One stop shop*

*3 The libraries places for people to meet.*

*4 The libraries offer a service and many of information points for residents to gain access to information they may find difficult to access at their own homes.*

*5 Children local to the library may only have that area to study. Their whole lives can be chaotic or cramped and they do not have the headspace or the workspace to do that school work.*

*6 The council have said it will save £480,000 but they have not taken into consideration the redundancies that they will be paying as well as not showing the County Councillor's a business plan*

*7 Finally, and this is the biggest issue, this decision goes against the council's constitution that any decision needs to be put in front of county councillors to vote on this has not been done Tony Ward has not even shown us a business case*

*Many Thanks*
